

Thank you for taking the time to participate in this survey. You played a critical role in your coalition, and, as part of our evaluation, we want to understand your experiences with the overall program. Please share what you think worked and didn't work and offer your suggestions for future improvements. Do you have any questions before we begin?

Coalition Meetings

1. How would you describe your coalition?

- a. Who actively participated in your coalition?

- b. Do you feel that the appropriate community agencies or members of your community participated?
If no, who was missing?

2. How did your coalition determine priorities and make decisions?

- a. What helped the planning process? What were barriers?

Activities

1. How did your coalition change over time?

- a. What was the biggest change you saw in how people worked with each other and the community?

1. What did you initially think about the idea of community resilience?

- a. What did your coalition think about resilience at the beginning of the project?

- b. In what ways did your impression and understanding of community resilience change over time?

- c. Can you tell me about the experiences with your coalition that changed your understanding of resilience?

Outcomes

1. What were the most successful activities you conducted? Tell me a story about a success.

- a. What was your goal for this activity?

- b. Who were you trying to reach/target at these event(s)?

- c. What outreach was done to the target community or community overall?

d. What organizations from your coalition or community participated in these activities?

e. What were the biggest challenges you faced for these activities?

1. What were activities you hoped would be successful but weren't?

a. What were the biggest challenges?

Closing Questions/Lessons Learned

1. What have you learned most about your community in the process?

2. Is there anything else about your coalition activity or project participation that you would like to share?
